Contact No.: [+91] 8898939587

## Professional Summary:

- Goal-oriented Software Developer with around **2 years** of experience in software development, application programming, maintenance, and requirement analysis using .NET technologies.
- Strong understanding of **Object-Oriented Programming (OOP)** concepts.
- Hands-on experience in **C# 10, ASP.NET Core MVC 6.0, Web API 2, Entity Framework Core, ADO.NET, LINQ, SQL Server 2019, Unit Testing, JavaScript, and jQuery**.
- Proficient in **writing optimized SQL queries and stored procedures in SQL Server 2019**.
- Experience working in a **collaborative team environment**, responsible for **developing, testing, and maintaining web-based applications**.
- Strong **work ethics**, excellent **communication skills**, and a proactive approach to problem solving.
- Well-versed in **software development methodologies**, including the **full system development lifecycle** and **Agile Scrum** practices.
- Experienced in **version control systems**, particularly **GitHub** for source code management.

## Technical Skills:

- **Programming Languages:** C#, TypeScript
- **Frameworks & Technologies:** ASP.NET Core, MVC, Web API 2, ADO.NET, Entity Framework, LINQ
- **Frontend:** Angular, JavaScript, jQuery, Bootstrap, AJAX, HTML, CSS
- **Databases:** SQL Server 2019 (Queries, Stored Procedures, Optimization)
- **Tools:** Visual Studio 2022, SQL Server Management Studio 2019, GitHub
- **Methodologies:** Agile Scrum, SDLC
- **Other Keywords:** REST APIs, Unit Testing, Microservices (conceptual), Responsive Web Design.
- **Cloud & DevOps:** Familiar with fundamentals of Azure App Services and CI/CD pipelines (learning phase)

## Employment History:

- Currently working as a Software Engineer in **Square Vision Technologies**. from February 2024 to till date.

## Experience:

**Project Title:** Transfer Convoy - Truck Booking System

**Technologies:** ASP.NET Core MVC 8.0, C#, Web API 2, Entity Framework Core, HTML, CSS, Bootstrap, JavaScript, jQuery, SQL Server 2019

**Role:** Software Developer

### **Roles & Responsibilities:**

- Developed functional modules using ASP.NET Core MVC and Web API, delivering features within Agile sprints.
- Wrote optimized SQL queries and stored procedures to improve application performance.
- Contributed to the implementation of a 3-tier architecture, enhancing maintainability and scalability.
- Built responsive, mobile-friendly UI components, ensuring cross-device compatibility.
- Performed unit and integration testing to improve code quality and minimize post-deployment issues.
- Actively participated in Scrum meetings and sprint planning, contributing to on-time delivery.

## Projects:

### Transfer Convoy - Truck Booking System

– An online platform that connects shippers, carriers, and drivers for seamless truck booking. Users can search for trucks, book transport by entering pickup and drop details, and track shipments in real time. The system includes secure payments and an admin panel for managing users, trucks, and billing.

– Tools Used: ASP.NET Core MVC, Web API Core, C#, SQL Server, Entity Framework, Bootstrap, JavaScript, Git

### FoodMesh – Online Food Delivery Platform

– A food delivery app that lets users browse menus, place orders, and track delivery- i.e. in real time. Integrated Gmail OTP verification for account security and Google Maps for tracking. Admins manage restaurants, orders, and payments through a dedicated dashboard

– Tools Used: ASP.NET Core MVC, Web API, C#, SQL Server, ADO.NET, Entity Framework, Bootstrap, AJAX, Google Maps API

## Education:

- **Bachelor of Engineering (B.E.)** in Civil Engineering – University of Mumbai
- **Higher Secondary Certificate (HSC)** – Maharashtra State Board
- **Secondary School Certificate (SSC)** – Maharashtra State Board
